Dear customer,

To be more flexible with your garden house we choose not to pre cut the holes for the doors in the inside rooms.

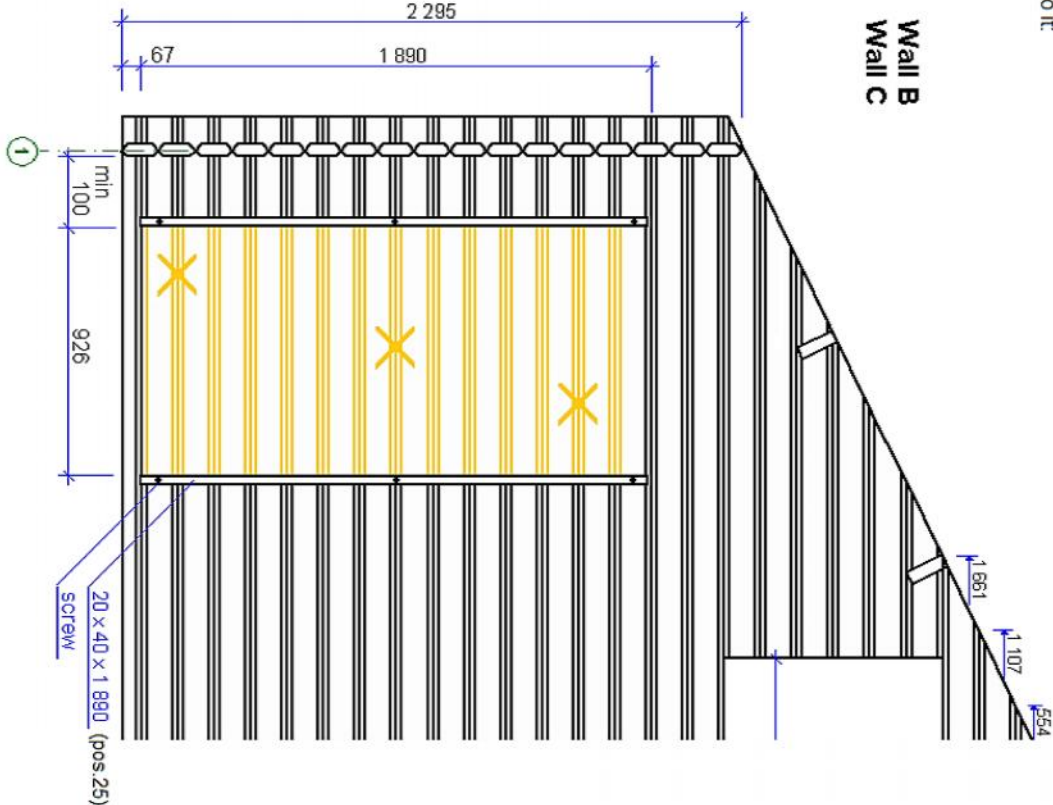

In this way you can choose where ever you may like the 2 doors, you can put them inside so you have 2 extra inside rooms or you can place them outside so you have an extra shed for your bicycles.

You just cut the hole in the wall where you want the door.

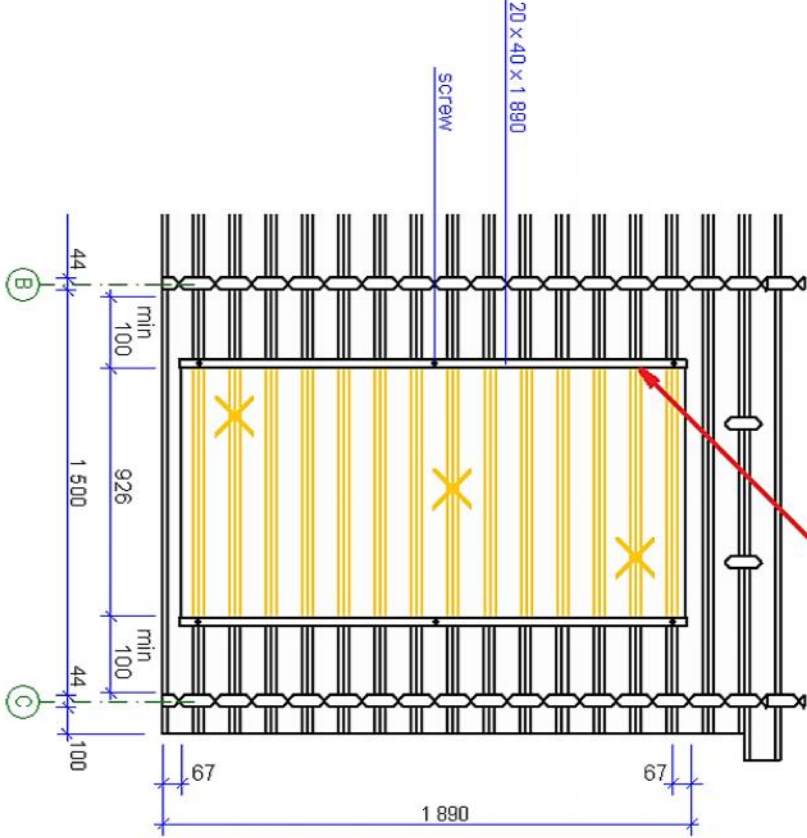

How to cut?

This is how you do it:

Wall B
Wall C

Wall 1
Wall 2
Wall 3

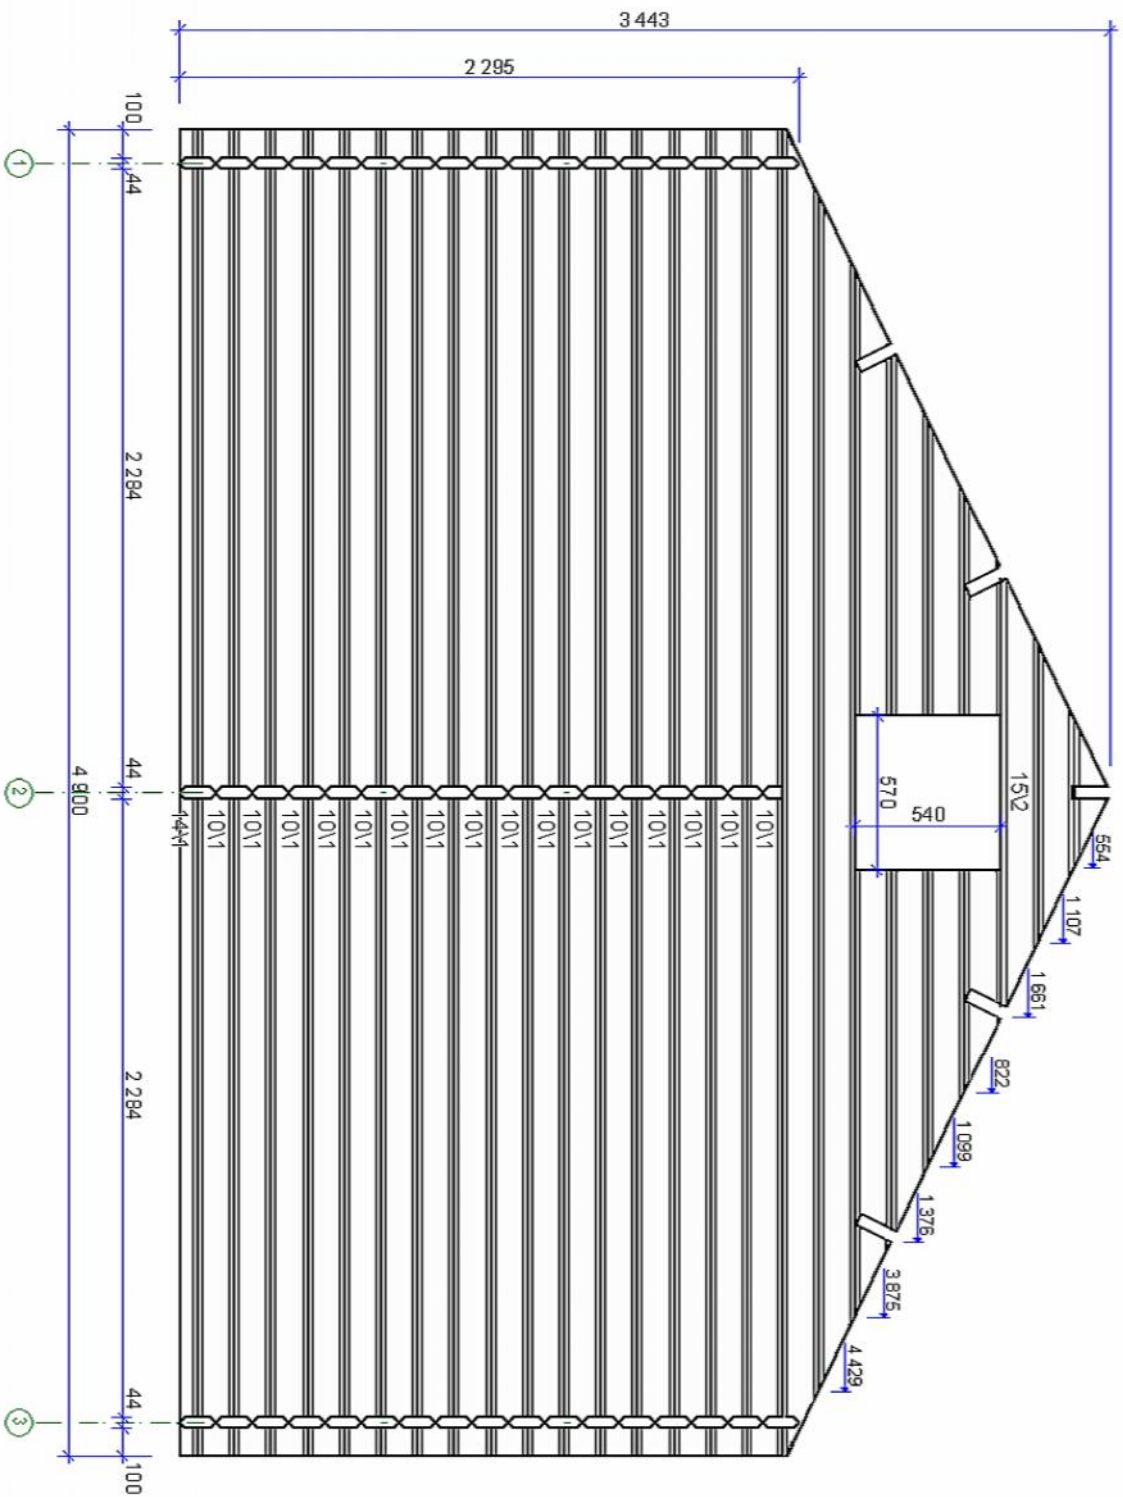

Support slats must be removed after cutting in the door hole!
